

E-Mentoring: 2006-2007 Program

For several years, NSTec employees have “e-mentored” students at Jim Bridger Middle School. The e-mentoring program, sponsored by the Clark County School District's School-Community Partnership Program, was initiated so adult mentors from the business community can support and guide middle school students who might be at risk for abandoning school responsibilities. E-mentors correspond weekly via email to assist the mentee in developing personal, social and academic growth.

For more information about NSTec’s E-Mentoring Program, contact Leadership Strategies and Ethics at (702) 295-2843.
